INDUSTRY INPUT SOUGHT ON DEMONSTRATING NET ZERO PROGRESS

The Construction Leadership Council (CLC)'s Net Zero workstream, CO2nstruct Zero is seeking views on how the industry should demonstrate progress on its collective Net Zero journey.

The findings will feed into the creation of a performance framework – a suite of metrics, targets, milestones and commitments – that the industry can use to measure impact and understand when and where further action needs to be taken.

The overarching framework will amplify many of the goals and initiatives already shared in this space, and ensure industry speaks in a single and unified voice.

Commenting on the survey's launch, Andrew Griffith MP, the UK's Net Zero business champion, said: "The construction industry has a vital role to play in achieving society's Net Zero ambitions and how we measure its progress will be vital to, not only meeting our targets, but ensuring we bring all businesses – large and small – on the journey."

Andy Mitchell, co-chair of the Construction Leadership Council (CLC), said: "A comprehensive and cohesive approach to measuring Net Zero progress is the foundation for so much more. Most importantly, it will ensure industry can be both challenged and praised. I'd urge all organisations and business groups working in our sector to complete the survey today and help us shape a Net Zero future."

The [CLC's online survey](#) is now open and closes at 17:00 on Friday 11 June 2021. It should not take more than 10 minutes to complete and is open to anyone working in the construction sector/industry.

Ends

About the Construction Leadership Council (CLC)

The CLC's mission is to provide sector leadership to the construction industry. The expanded CLC has twelve workstreams that operate collaboratively to address the biggest issues facing the sector, focused on the Industry Recovery Plan. Workstreams include skills and inclusion, building safety and business models. The CLC is co-chaired by Ann-Marie Trevelyan MP, Minister for Business and Industry, and Andy Mitchell CBE, CEO of Thames Tideway.
